

Purpose of the questions

**International Master's Programs of Chemical Engineering in the Graduate School of Engineering,
Kyushu University (Academic Year from April, 2026)**

科目 / Subject : 化学熱力学 / Chemical thermodynamics (1枚 / 1 sheet)

熱力学の第一法則，第二法則，部分モル量，束一的性質に関する基本的な理解を問う。 / This question examines a fundamental understanding of the First and Second Laws of Thermodynamics, partial molar quantities, and colligative properties.
